2007 Porsche Turbo (997.1)

14k miles, 6 spd, Guards Red on full black leather interior

I had been casually searching for the right 997.1TT, low miles, 6 speed with the legendary Mezger engine (2007-2009) and the right options. Found a beautiful Guards Red version online from Premier. Troy was extremely helpful on the phone and email describing the car's condition, and the large number of pics on their website made most things obvious anyway. I drove up a week later intending to trailer it home after a successful PPI (local Porsche dealer in Springfield performed the service in about 3 hours for ~ \$250). I abandoned the trailer plan to drive it home instead, and Premier was gracious enough to store my modified SVT Lightning pickup inside for a week until I could return to retrieve it. The car is everything I expected and the experience with Premier was superb. Their showroom contains only low-mileage high-quality examples, with an obvious preference for Porsches (where else will you see two 928 GTs in one spot...) I recommend them highly and will definitely be back. Cheers, Jeff
