Chris and Deidra: This was a great experience. I wanted to just say personally, a big Thank you for your integrity and ease of purchase. I have never purchased a vehicle in this manner so have been very hesitant. Before contacting you, I had spent quite a bit of time with another dealership, which was actually in the same state as you, dealing on a 2018 low mileage Raptor. However, I just didn't feel comfortable with the people and then I saw your truck. Having seen in the past, your dealership and product offerings, I already had an intuitive sense of how you operated. Once I contacted you, and spoke with you, it was an immediate and easy decision. Post purchase-- You picked a great carrier, the truck is in perfect condition as you advertised, you even filled it full of gas (nicely done and thank you) and I can't be happier with how this whole deal worked out. Not quite finished, but almost.

How wonderful to work with honorable and professional people. You can't go wrong treating people correctly and you obviously have that motto. You haven't seen the last of me, I will be back. Take care until then.
