Porsche GT3
Annapolis, MD

I wanted to replace my wife's turbo cabriolet with a manual GT3 which was her dream car. After being told by our local dealer that I couldn't even order the car I wanted I went online and couldn't find the right spec until I found Premiere Sports Cars and then it still wasn't perfect. I called and spoke to Chris and he assisted me in making the car exactly what I wanted. He and Deidra made the entire transaction an absolute pleasure. No pressure, bait and switch or any other sales gimmickry, just good people. Chris offered a more than fair trade in value for the turbo and worked out all the details for the delivery and pick up for me. My wife is thrilled with her GT3 and we cannot recommend Chris and his team too highly.

Thanks again
