2019 Audi A6

Thank you Nic! It was truly a pleasure working with you during all phases of the purchase of my new Audi. Your calm and assuring demeanor during our discussions about the car combined with no high pressure to buy helped me reach a decision. This was not easy for me due to the distance between us, but your use of the computer and telephone brought us to a successful conclusion. Right from the start I had a feeling of confidence in you and your honesty in dealing with this purchase. I can assure anyone working with you that they are in good hands. Best of luck in the future and please convey my personal thanks to Deidra and Luke.
